Equity

In Sept 2016 Equity Council made the Online Branch a 'permanent fixture' of the Equity Branch Network.

In Jan 2017 the very first elected branch committee met online and began collaborating to continue to work on the methodology for effective and sustainable digital communications to ensure the branch functions as a parallel proposition along side the regional and variety branches in the UK as well as providing an outpost for democratic participation across the world where members are working internationally.

So we are here. We made it. Here are a few numbers...

- On May 19th 2017 the branch members count stood at 720.
- At the 2016 ARC x60 representatives were among the branch membership.
- For the 2016 Council Election 39 candidates were branch members
- 25 candidates elected to the Equity Council are members of the Online Branch.

At the last two Annual Representative Conferences Caron Lyon spoke to many members who were interested in seeing a more socially approachable network to compliment the official Equity site as an alternative to the Facebook meat market.

The result is The unofficial Online Green Room.
